

BRIVO Unified Power Systems

optimize install efficiency, space utilization and servicing

Installation and service efficiencies

All-in-one UL listed integrated power system
 One AC drop reduces installation costs
 Deep enclosures accommodates large battery sets

Pre-wired power section saves installation time

120 or 230VAC input all systems with polarized AC harness and on/off circuit breaker switch for safety

Custom designed backplate

Removable aluminum backplate mounts multiple ACS6000/6100 panels in single or dual voltage configurations.

LSP OutSmart™ Technology

Dual color output LEDs verify voltage throughout system

Network management option

Enables remote servicing
 Live monitoring of system parameters
 Initiate remote battery load tests or
 remote power cycle connected devices

Brivo systems are UL/ULC listed

for flexible mix and match configurations in any enclosure

UNIFIED POWER CONFIGURATIONS

power, lock power and controllers integrated into one secure, UL listed enclosure.
